AirWave 1

AirWave Packaging introduces the next generation of air cushion machines. The AirWave 1 offers speed, versatility and functionality in a lightweight package. Only 12.3 lbs, the AirWave 1 delivers powerful performance, supplies up to 4 workstations, and can easily change output to match any packing needs. AirWave 1 is programmable and can be seamlessly integrated into AirWave's system technology.

The AirWave 1 creates on-demand inflatable void-fill and cushioning solutions for packaging operations of all sizes. With run speeds ranging from 26' to 32' per minute, this small-footprint, versatile machine works with all AirWave film types in a variety of patterns and applications.

RELIABLE

Minimal wear parts
Less than 4 hours of
maintenance per year.

VERSATILE

Single system produces inflated
cushions and bubble of varying
lengths, fill levels and film types.

EXPANDABLE

Integrate with accessories and
delivery systems for maximum
productivity and ergonomics.

AirWave 1
