## AirWave2

AirWave 2 is the latest development in the AirWave machine line, resulting from testing thousands of AirWave machines. Uncompromising on efficiency, speed and quality, the AirWave 2 is the most flexible and user-friendly model of the AirWave series. This low-maintenance, quiet, durable, programmable model can be seamlessly integrated with any AirWave system application.

The AirWave 2 creates on-demand inflatable void-fill and cushioning solutions for packaging operations of all sizes. With run speeds ranging from 26' to 66' per minute, this small-footprint, versatile machine works with all AirWave film types in a variety of patterns, applications and accessories.

### RELIABLE

Minimal wear parts  
Less than 4 hours of  
maintenance per year.

### VERSATILE

Single system produces inflated  
cushions and bubble of varying  
lengths, fill levels and film types.

### EXPANDABLE

Integrate with accessories and  
delivery systems for maximum  
productivity and ergonomics.
